

ELECTION STATEMENTS

Peter Hinton

I was on Academic Board from November 2002 to April 2007 and was the Academic Board nominee on the Board of Governors from December 2002 to April 2005. A recent change in the terms of office now allows me to seek reappointment to the Board.

I have extensive experience of LJMU academic and management activities. I have served on Q&S Cttee as well as chairing PQSP, the University Standing Panel and validation/review events. One of my current roles is to provide project assurance on major strategic initiatives.

Paulo Lisboa

Academic support for staff and the associated regulatory frameworks are areas in which I have a longstanding interest and commitment. If elected to return to Academic Board I shall continue to serve the interests of Professoriate in particular with relation to research and scholarship, to maintain and enhance quality of provision, academic standards and service support.

Carol Maginn

I have been a full-time member of staff at LJMU for seven years. I am a senior lecturer on the Legal Practice Course in the School of Law, and am a committed and involved member of the School.

I have some understanding of governance, and would value the opportunity to learn about, and participate in, the governance of the University. I believe I possess the ability to listen, work co-operatively, and problem solve.

I am very interested in learning more about how the University works. I would bring enthusiasm, and a desire to learn, to this role.
